- Mother had sexual intercourse with someone else within the time period of 30 days before or after she became pregnant with this child.

Has genetic testing been done for any possible father? Yes No

In response to a question about why she believes the father named on page one is the most likely father, mother explained:

I am a Child Support Services Officer for the Arizona Division of Child Support Services (DCSS). I have prepared this affidavit based upon a telephonic interview with the Mother. I have conducted this interview in the ordinary course of my employment with DCSS. I verified her identity using personally identifiable information DCSS has on file. I explained to the Mother that the information she provided herein would be used as the basis for filing a legal action to establish paternity against the alleged father and that she must be available to testify to the allegations during litigation. I declare under penalty of perjury that this affidavit has been transcribed accurately based upon my personal interview with the Mother, and that I have read and completed it to the best of my ability and knowledge and believe it is a true, correct, and complete document.
