Currently, 13,901 ATLAS cases have been identified as Hayden universe cases. An "R" narrative has been added to all of these cases with the new suspense code, **SNHA - Potential Hayden Case**. All enforcement remedies have been suppressed on the **Suppression Detail (SUDE)** screen. A new **Case Activity List (CAAL)** code, **M0006 - Potential Hayden Case**, has been created to identify them.

Please do not take any action on these cases at this time. All staff will be provided with Policy Updates for further clarification and direction on the Hayden cases.
