Policy Update
PPU 06-04-004

DATE: April 10, 2006

SUBJECT: Update of the PACC Screen by Central Registry

*Please contact the Policy Unit if you have any questions regarding these or any other changes
at *DCSE-POLICYQUESTIONS, CSE.POLICY or (602) 274-7951.*

*The IV-D PARTNERS should send POLICY inquiries directly to *DCSE-POLICYQUESTIONS@azdes.gov*

This PPU is to inform staff of the procedures that will be used by Central Registry to update the **Paternity Child – Case (PACC)** screen.

When a Transmittal is received from another state and it does not provide information regarding how paternity was established and is a request to enforce their current child support order, Central Registry will be placing an “N” in the **BIW** field on the **Child Demographics (CHDE)** screen. Central Registry will also update the **Method** field on the **Paternity Child – Case (PACC)** screen with **PEO – Paternity Established Out of State** and use the child support order information to update the **Pat Order #, Date Signed,** and **Court ID** fields.

If information is received that the child(ren) was/were born in wedlock then Central Registry will updated the **BIW** field on the **Child Demographics (CHDE)** screen to “Y” and will use **BIW – Born in Wedlock** in the **Method** field on the **Paternity Child – Case (PACC)** screen.

This action is being taken to avoid any delays in case processing and to improve the flow of cases coming into the regional offices in a more timely manner.
