This PPU is being sent to inform staff of two changes to the NCP Insurance Policy Detail (**NCPD**) and the CP Insurance Policy Detail (**CPPD**) screens. These changes became effective Monday, April 24, 2006.

1. The '**Rel**' field has been re-titled to '**Obt Thr**' (Obtained Through). This change assists the user in correctly identifying the party who is providing the insurance coverage for the child(ren).
2. The table and corresponding code values for the '**Rel Hldr**' field have been updated. The changes to the table and the corresponding code values support the '**Rel Hldr**' field for correctly identifying the child's relationship to the policy holder.
