The PPU is to notify all IV-D Staff that the Administrative Review Unit has been advised by the Attorney General's Office to issue an inconclusive decision on cases where an administrative review request is filed by Non-Custodial Parent on a case with an unregistered foreign court order where DCSE is only using administrative actions to enforce the case.

Until the foreign order has been registered and a Final Determination can be issued, the Administrative Review Unit has been instructed to amend the Income Withholding Order on cases where current support is due to the current amount only and on a case with arrears only they will completely stop the Income Withholding Order.
