A new Judgment Type - POA (Payment on Arrears) - has been added to the SUOD Panel Two Judgment and Fees Type Table.

The POA Judgment Type code is added to SUOD when a court orders a payment on arrears and an arrears balance or judgment is not included in the order.

When the POA Judgment Type is added to the SUOD record, and the IWO Calculate Payment field is set to "N", the IWO will read the Monthly Amount value of the POA and will include that amount as a payment on arrears.

To add the POA Judgment Type

- Enter POA on the Judgment and Fees Type field.
- Enter the court ordered payment on arrears in the Monthly Amount field.

The following ATLAS edits are in place for when the POA Judgment type is entered on the SUOD screen:

- The Judgment and Fees Principal Amount, Interest, From Date and To Date must be blank.
- The PSJ, JCH and ARR Judgment types cannot be added to the same SUOD record.

Staff are urged to view this information directly on OPPM and not create a separate personal file. Click on the link <http://dcsepc>. You will find this Policy Update in Policy Updates 2010.
